

Were packages loaded initially? whichpkg: not loaded; subdir/whichpkg: not loaded.

Was package loaded the first time? Expect whichpkg.sty: [loaded whichpkg.sty].

Did it load a 2nd time? Expect cleared: cleared.

Did it load from subdir? Expect subdir/whichpkg.sty: [loaded subdir/whichpkg.sty].

Did it load a 2nd time? Expect cleared: cleared.

And of course the flag has been: cleared.

Were packages loaded finally? whichpkg: loaded; subdir/whichpkg: loaded.
